Cindy: I'm not sure from your message if this means you expect to ship us some samples for SVOC analysis or you just still need us on call. Let me know
Sincerely,

Subject: R3 Status

Hello All.

Sampling for Dimock began this week with the first shipment expected tomorrow.

The projected total number of samples has increased to about 120. So far, this is still doable for R2, R3, and R9, with R1 & R2 as backup for SVOCs. I may need a backup lab for Oil & Grease so if anyone is interested in being "on call" for that analysis please let me know. I'm hoping we will be able to complete at least a week's worth of samples so I probably would need assistance next week if things don't go well.

Cindy
